

About Me

Motivated and detail-oriented MCA student with a strong foundation in computer science and programming. Passionate about developing innovative solutions and eager to apply technical skills in a challenging environment. Quick learner with strong problem-solving abilities and a keen interest in software development and data-driven applications.

Technical Skills

- Web Development
- Python programming
- Adobe Photoshop
- SQL / Database
- MS Excel

Soft Skills

- Team work
- Creative Thinking
- Problem Solving
- Quick Learning Ability

Language

- Tamil - Native
- English - Intermediate

Achievements

IBM COURSE CERTIFICATIONS

- Data Visualisation
- Design Thinking

ORACLE ACADEMY CERTIFICATION

- SQLWorkshop

INTRODUCTION TO DATA SCIENCE

Cisco Networking Academy
Completed on: Feb 2026

Internship&Workshops

SIRENA TECHNOLOGIES

Artificial Intelligence & Robotics Intern

Hands-on Experience in Robotics Technology:

Gained practical knowledge of the functionalities and applications of advanced robotic systems developed by the company.

Adobe Premiere Pro

**MAAC | Institutional Training
Programme | Coimbatore**

Fresher in Adobe Premiere Pro for video editing, with experience in basic photo and video manipulation techniques Demonstrated understanding of fundamental editing principles and workflow management through Adobe Premiere Pre training.

Education

**Master of Computer Applications(MCA)
(Pursuing)**

Dr G R DAMODARAN COLLEGE OF SCIENCE (Autonomous),
BHARATHIAR UNIVERSITY, Coimbatore

B.Sc Computer Science

2022 – 2025

Computer Science
Hindusthan College of Arts &
Science, Coimbatore
CGPA: 7.3

Higher Secondary Education

Bharathi Matric Hr Sec School, Erode
67% (2022)

Project (Individual)

Agenda for the Defending Case on the Web Directory

- Developed a web-based legal case management system with features like case tracking, scheduling, and document management.
- Implemented search functionality and intuitive UI using React JS and MySQL for efficient data handling.

Tech Stack: React JS, MySQL

Smart Heart Disease Detection System

- Developed a heart disease prediction system using Python and Random Forest.
- Used Pandas, NumPy, Scikit-learn, and Streamlit for development.
- Built a Streamlit web application for prediction and probability display.
- Performed data preprocessing, model training, and system testing.
